

GRACE Science Data System Monthly Report

December 2007

Prepared by:

Frank Flechtner GFZ flechtne@gfz-potsdam.de

Contributions by:

Srinivas Bettadpur UTCSR srinivas@csr.utexas.edu
Mike Watkins JPL michael.m.watkins@jpl.nasa.gov
Gerhard Kruizinga JPL gerhard.kruizinga@jpl.nasa.gov

Approved by:

Byron Tapley UTCSR tapley@csr.utexas.edu
Markus Rothacher GFZ rothacher@gfz-potsdam.de

Highlights:

- CSR has generated and delivered RL04 Level-2 products for November 2007, GFZ for October till December 2007.
- Due to the S2 problems with AOD1B RL04 between June 23, 2006 and September 20, 2007 (see newsletter for October 2007), which caused noticeable signals of up to some mm water-layer equivalent over the oceans; GFZ has reprocessed all monthly fields between June 2006 and September 2007. **Users shall download these products once again taking into account that**
 - Correct GFZ GSM products can be recognized by the additional header comment line *"CMMNT Generated with correct AOD1B RL04 product (see SDS Newsletter October 2007)"*
 - Correct May and September 2007 have already been provided before (see Newsletter for November 2007)
 - Some of the GAX products have been reprocessed too (July, September, October and December 06), because the number of days used to calculate the corresponding GSM product has been changed. Please substitute the old GAX products too!
 - Further details are given in the GFZ RL04 release notes and in the L2 Product Generation and Distribution section below.
- CSR and JPL have not completely finished their reprocessing for June 2006 till September 2007. Further information will be provided in the January 2008 newsletter.

Satellite Science Relevant Events:

- Operations in Science Mode throughout the month except the star camera halt on GRACE-A mentioned in the Level-1 Data Processing Section below.

- The GRACE-1 Brouwer mean orbital elements on January 1, 2008 00:00:00 are as follows:
A [m] = 6839895.624
E [-] = 0.001718
I [°] = 89.009754
- The satellites separation was 245 km on January 2, 2008 with a rate of +0.50 km/d. Next orbit maintenance maneuver will be needed in about two months.

Level-0 raw data dump reception statistics at DLR ground stations Weilheim and Neustrelitz:

GRACE-1 Housekeeping:	99.9 %
GRACE-1 Science:	100.0 %
GRACE-2 Housekeeping:	99.2 %
GRACE-2 Science:	100.0 %

Level-1 Data Processing:

- Level-1B Release 01 instrument data have been processed at JPL and archived at GRACE-ISDC and JPL PO.DAAC.
- **Notes**
 - On 2007-12-10 at 05:21 the GRACE-A star camera halted data production, which resulted in a drop to coarse pointing mode at 05:31. After a second IPU reboot nominal operations were restored at 05:42. Total KBR1B data loss of 26 minutes
- **KBR statistics:**
 - A) KBR1B product name
 - B) Total arc length with data (hours)
 - C) Number of observations used in residual calculation
 - D) KBR-GPS range residual RMS (cm)
 - E) minimum KBR-GPS range residual (cm)
 - F) maximum KBR-GPS range residual (cm)
 - G) number of continuous segments in the KBR product

	A	B	C	D	E	F	G

KBR1B_2007-12-31_X_01.dat	24.0	17280	1.84	-5.2	9.0	1

- Following JPL RL00 (yellow) and RL01 (green) L1B products are publicly available. June and July 2002 (red) are not provided due to accelerometer problems.

[illegible]

- L1B De-aliasing Products Status (for details see AOD1B Product Description Document):

- Release 01: Generation has been stopped June 30, 2007.
- Release 03: Generation has been stopped January 31, 2007.
- Release 04: Generated until January 24, 2008.

Note: Products for June 23, 2006 until September 20, 2007 have been reprocessed due to wrong S2 tide correction in OMCT output data. This error primarily affected the C22/S22 AOD1B RL04 coefficients in the mentioned period. New (correct) products can be recognized by the product create start and stop times which shall have a November 2007 time stamp. For further details see October 2007 newsletter.

- Quality statistics for Release 04 products are online available at <http://www.gfz-potsdam.de/pb1/op/grace/results> (follow link “GRACE Atmosphere and Ocean De-aliasing Statistics”).
- Following AOD1B products are publicly available (yellow: RL01, RL03 and RL04; green: RL01 and RL04, blue: RL04 only):

AOD1B	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												
2008												

Level-2 Product Generation and Distribution:

- Besides historical CSR RL01, GFZ RL03 and JPL RL02 time-series (see below) and more experimental releases which are only available to the GRACE Science Team the following RL04 L2 products are presently available to the public (green: available, green striped: will be reprocessed shortly, yellow: in preparation; red: missing due to accelerometer data problems)
 - GFZ: GSM solutions for August 2002 until December 2007. July 2004 until October 2004 and December 2006 are also available as constrained solutions (*GK2-*). Corresponding background GAA, GAB, GAC and GAD products and calibrated errors (GSM*.txt) have been provided too. Details are listed in the GFZ L2 Release Notes.

GFZ RL04	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												

- CSR: GSM solutions along with the GAC and GAD background model files and calibrated errors (GSM*.txt) are available for the period April 2002 until October 2007. Details are listed in the CSR L2 Release Notes.

Note: As mentioned in the “Highlights Section” all GSM RL04 between June 2006 and September 2007 will be reprocessed soon.

CSR RL04	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												

- JPL: GSM version 4.1 labeled “*JPLEM_0001_0004” along with the GAC and GAD background model files and calibrated errors (GSM*.txt) are available for the period April 2002 until July 2007. Details are listed in the JPL L2 Release Notes.

Note: As mentioned in the “Highlights Section” all GSM RL04 between June 2006 and July 2007 will be reprocessed soon.

JPL RL04	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
2002												
2003												
2004												
2005												
2006												
2007												

- GFZ has stopped RL03 processing (Feb 2003 until Jan 2007 available at the archives. For further details refer to the GFZ RL03 release notes for Level-2 products).
- CSR has stopped RL01 processing. (Apr. 2002 until Dec 2006 available at the archives. For further details refer to the CSR RL01 release notes for Level-2 products).
- JPL has stopped RL02 processing (January 2003 until November 2005 available at the archives. For further details refer to the JPL RL02 release notes for Level-2 products).
- TN05 containing C20 estimates derived from SLR and using GRACE RL04 standards is

periodically updated.

Miscellaneous:

- A list of GRACE related publications which can be sorted by author or date is available at http://www.gfz-potsdam.de/pb1/op/grace/index_GRACE.html under item “Publications”. This list will be regularly updated and maybe incomplete. If you are missing a publication please send an e-mail to Frank Flechtner.
- Science data users are encouraged to submit citations of their own and other works related with GRACE to the bibliography web page implemented at PO.DAAC: <http://podaac.jpl.nasa.gov/grace/bibliography.html> .
- Secure PDFs of oral and poster presentations from the Joint International GRACE Science Team Meeting and German Special Priority Program “Mass Transport and Mass Distribution in the Earth System” Symposium which took place at GFZ Potsdam between October 15 and 17, 2007 are online available at <http://www.massentransporte.de/index.php?id=151> .
